

Policy ... Equipment

Newby Fun Factory is committed to providing children with access to a wide range of equipment that stimulates enjoyment, learning and development, both indoors and outdoors.

All furniture, toys and equipment are kept clean, well maintained and in good repair and in accordance with BS EN safety standards or the Toys (Safety) Regulations (1995) where applicable.

Equipment will be properly maintained and inspected in accordance with the manufacturer's instructions. All electrical toys and equipment are subject to PAT (Portable Appliance Testing), and that relevant staff are trained on the correct use of computers and other IT equipment.

Levels of staff supervision will be sufficient to ensure that the safety of children is assured, and set according to the type of equipment being used, along with the ages and number of children involved in a given activity.

All equipment and resources will be selected with care, and risk assessments carried out before new toys and equipment are purchased, according to the principles of the Risk Assessment policy.

The Fun Factory has equipment and resources suitable for all children currently in attendance.

The Fun Factory's equipment and resources 1 reflects positive images with regard to culture, ethnicity, gender, and disability.

Resources will, whenever possible, show men and women in a variety of roles and jobs, and people with different abilities being both active and creative. Examples of everyday life will portray people from a variety of family groupings and cultural backgrounds in a range of non-stereotypical roles.

Outside the Fun Factory's opening hours, all equipment will be kept in a suitable and secure location; safe from unauthorised access or use. When discovered, defective or broken equipment will be taken out of use. The Team Leader, in collaboration with the MD, is responsible for planning and reviewing the stock of equipment annually, when the Fun Factory's Inventory Record is updated.
